

Chapter Directory

Here you will find many of the predental chapters located within our district. These are from previous contacts, through online searches and through social media. Some have no predental presence so we included the pre-health advisor contact information as well. If you are interested in starting a new club or joining one, please contact us as well as your local pre-health advisor and your college SGA. **If your club is missing from this directory or if the information is incorrect, please contact us with any updated information.**

Only a handful of these chapters are official ASDA Predental Chapters. In order to become an official predental chapter, please click the following [link](#) to find out more information. Chapters have the opportunity to become officially recognized ASDA chapters in March and September every year.

For more questions, contact D4 Predental Chair Eduardo Lopez.
